

Visitear Sterile Lubricant Eye Drops

Glycerin 0.2%, Hypromellose 0.36% & Polyethylene Glycol 400 1%

Presentation

Visitear sterile Lubricant Eye Drops: Each ml contains Glycerin BP 2 mg, Hypromellose USP 3.6 mg and Polyethylene Glycol 400 BP 10 mg.

Description

Visitear is the preparation of Polyethylene Glycol 400, Hypromellose and Glycerin. Polyethylene Glycol 400 increases the stability of tear film and due to greater muco-adhesive properties hypromellose helps the tear film to attach with the ocular surface. Glycerin restores moisture to the dry eye.

Indications and Uses

It is indicated for the symptomatic relief of burning, irritation and discomfort due to dryness of the eye.

Dosage and Administration

Instill 1 drop in the affected eye(s) 3 times daily or as needed.

Side-effects

Blurred vision, burning, irritation may occur.
